

Reserve Parking Lock

Features

high-quality paint to prevent erosion

Three-layer computer baking technology, anti-rust technology on the surface

release your hands, automatic induction

Intelligent remote sensing, operating within 30m

Remote control: two standard

Production materials: high temperature alloy steel

Raised height: 40CM

Width: 45CM

Falling height: 8CM

Power supply mode: dry battery

Waterproof performance: IP67

Use environment: minus 10 degrees Celsius- positive 55 degrees Celsius

Anti-collision performance: positive and negative 180° anti-collision

Packing list:

- 2x remote control
- 2x key
- 3x expansion screw
- 4x battery
- 1x instruction manual
